

Manisha Subedi

Data Analyst

📍 Lisbon, Portugal 📞 +351 920 353 472 ✉️ maanishasubedi@email.com 🔗 [linkedin.com/in/manisubedi](https://www.linkedin.com/in/manisubedi)

Professional Summary

Data Analyst skilled in Power BI, SQL, Python, Tableau, Excel, data modelling, ETL, dashboard development, and data quality, with experience translating business questions into actionable insights.

Technical Skills

Analytics and BI: Power BI, DAX, Power Query (M), Tableau, dashboard design, KPI development, data storytelling

Data and Programming: SQL, Python, Databricks, ETL, data transformation, data validation, Excel, ANOVA, hypothesis testing

Data Modelling: Star schema, fact and dimension tables, date dimensions, relationships, time intelligence, calculated measures

Languages: English, Portuguese

Professional Experience

Data Analyst / BI Intern

July 2025 – November 2025

BenGen (Benevolent Generation LLC) | Remote

- Developed and maintained Power BI datasets and data models by integrating multiple sources, mapping fields, transforming data, and applying quality checks for reliable reporting.
- Used SQL and Python to extract, clean, join, transform, and validate consumer and campaign data for business intelligence and analytical reporting.
- Supported Databricks ETL pipelines by converting raw data files into structured tables and preparing dependable datasets for downstream analytics and Power BI consumption.
- Built and maintained Power BI dashboards, implementing measures and model logic to surface campaign, audience, and operational performance insights.

Scientific Initiation Intern

September 2023 – February 2024

Centro de Investigação de Montanha (CIMO) | Bragança, Portugal

- Organized, cleaned, and validated experimental data from 220+ replicated laboratory plates across five pathogen isolates and multiple treatment conditions.
- Used Excel to calculate averages, standard deviations, growth-inhibition rates, and EC50 values, producing analysis-ready tables and visualizations.
- Applied ANOVA and post-hoc testing to identify statistically significant differences between treatment concentrations.
- Presented findings to a research jury, identifying treatment effectiveness of up to 96.69% growth inhibition and supporting recommendations for further trials.

Selected Projects

Hotel Revenue and Cancellation Analytics

Power BI, DAX, Power Query, SQL concepts, Claude Code

- Built an end-to-end four-page Power BI solution for 119,390 hotel reservations across two Portuguese properties, translating revenue, demand, channel, customer, and cancellation questions into an executive reporting workflow.
- Reshaped a flat booking extract into a star schema with a marked, contiguous date dimension, four conformed dimensions, single-direction relationships, and a role-playing date design for arrival and cancellation analysis.
- Authored and documented 42 explicit DAX measures using variables, context transition, time intelligence, filter management, and inactive relationship activation with USERELATIONSHIP.
- Validated data quality, KPI definitions, and metric identities; removed an invalid occupancy calculation that used booked nights as capacity and rebuilt occupancy, ADR, and RevPAR using business-supplied room inventory.
- Delivered drill-through booking detail and insights showing 37.0% lost bookings, 56.7% cancellation for 181+ day lead times, and 13.3% cancellation for repeat bookings.

Executive Sales Performance Dashboard

Tableau, Data Analytics

- Cleaned and joined 10,000+ sales records, validated fields, and created calculated metrics for sales, profit, orders, and customer performance.
- Built an interactive executive dashboard using parameters, calculated fields, filters, tooltips, and dual-axis visualizations for customer, product, and geographic analysis.
- Identified 36.2% year-over-year sales growth and 30.9% profit growth while the customer base grew 6.0%; found Consumer strongest and recommended retention and upselling opportunities.

Education

BSc in Chemical Engineering

September 2021 – September 2024

Polytechnic Institute of Bragança | Bragança, Portugal
